# Welcome to NTS

Founded in 2001 and headquartered in Dubai, **Natheer Technical Services LLC** is a leading distributor of marine, industrial, and renewable energy solutions across the GCC.

We specialize in the supply, integration, and servicing of high-performance systems from globally recognized manufacturers. Our solutions are designed to meet the rigorous standards of marine, commercial, and industrial operations.

# Why You Should Choose Us?

## Authorised Distributors

Trusted distributors for globally recognized brands.

## Comprehensive Solutions

From installation to maintenance.

## Customer-Centric Approach

Tailored solutions and after-sales support.

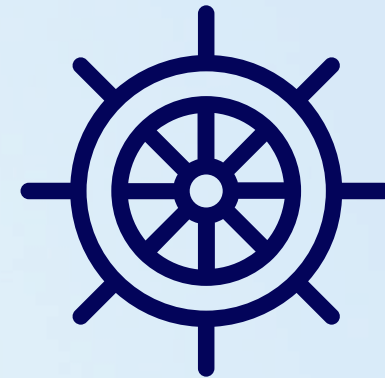

## Competitive Pricing

Get the best value without compromising quality.

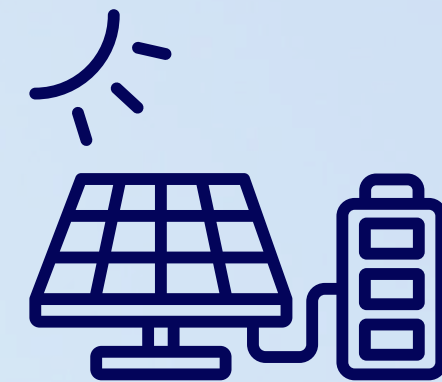

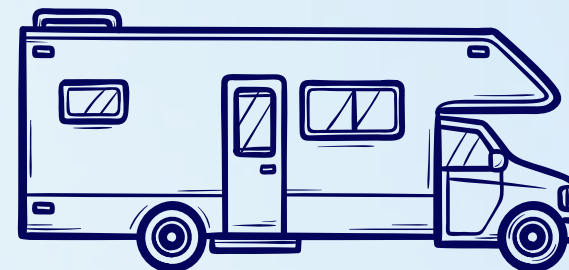

# Industries We Serve

> Marine Industry

> Off-Grid

> RV Markets

> Military

# Our Product Categories

- ⚙ Marine & Vehicle Generators
- ⚙ Battery Systems & Energy Storage
- ⚙ Inverters & Power Electronics
- ⚙ Marine Air Conditioning Systems
- ⚙ Steering & Engine Control Systems
- ⚙ Solar Panels & Off-Grid Systems
- ⚙ Reverse Osmosis Watermakers
- ⚙ Expansion Joints & Vibration Mounts
- ⚙ Marine Windows & Doors
- ⚙ Wipers & Electrical Accessories
- ⚙ EV/RV Energy Solutions
- ⚙ Control Cables & Hydraulic Systems
- ⚙ Anti Rolling Gyros

# We Are Authorized Distributors

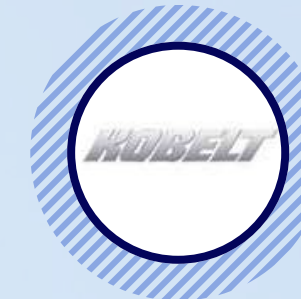

FISCHER  
PANDA

VICTRON  
ENERGY

FRIGOMAR

KOBELT

BYD

## 135 kVA Off Grid System

CASA MIKOKO

**“At Casa Mikoko,  
Sustainability  
Meets  
Innovation.”**

Hidden within the tranquil mangroves, a powerful 135 KVA Off-Grid System ensures uninterrupted energy, blending luxury with responsibility. Powered by 250 kWp of solar panels and backed by 130 kWh of lithium batteries, it stores the sun’s energy to light up every experience, day or night.

With dual input options from grid or generator, this smart system guarantees that Casa Mikoko remains an eco-luxury retreat where comfort never compromises nature.

# Our Off Grid Projects

## 90 KVA Off Grid Lithium System COLD STORAGE COMPRESSORS

# Our Off Grid Projects

## 63 kW Hybrid Solar System

NATHEER TECHNICAL SERVICES

Our in-house installation combines solar generation, lithium battery storage, and advanced monitoring to demonstrate how hybrid systems deliver reliable, efficient, and scalable energy solutions.

### Key Highlights:

- 63 kW Hybrid Power – Seamless off-grid & grid integration
- 90 kWh BYD Storage – Reliable backup capacity
- 71.2 kWp Solar Array – Clean and sustainable generation
- Smart Monitoring – Live performance via Cerbo GX
- Proven Expertise – A working model for our clients

**“Our showroom system is more than a display.  
It’s a living proof of trust, innovation, and capability.”**

# Our Off Grid Projects

## 45 KVA Hybrid Solar Solution

PRIMARY SOURCE OF POWER FOR THE INSTITUTION

**“Empowering knowledge with the strength of the sun.”**

This 45 kVA Hybrid Solar Solution powers an Institute in Somalia, serving as the institution’s primary source of electricity. Combining Jinko solar modules, Victron and Fronius inverters, BYD batteries, and backup genset support, it delivers reliable, sustainable energy for education and community development.
